Hi I have a saab 93 aero 2.8 t v6 2006 with 6 speed auto box and I'm struggling, car has been driving lovely until I didn't see quite a large pool of water I was doing about 40 mph and shortly after gearbox malfunction light came on limited performance had it scanned several times p0717, P0722,p0700 no signal?

P0717 - Turbine shaft speed (TSS) sensor -no signal ...

The reduced engine power warning message can come on your car or truck. Today's vehicles are for the most part completely electronically controlled. From every button and switch on the dash down to the 'fly-by-wire' throttle control system. Back in the day, before these electronically controlled throttles, everything was cable actuated.

Reduced Engine Power Warning- What's Wrong With My Truck?
