One of the most common questions related to the sterile processing department (SPD) is this little gem, asked by surgeons, nurses and scrub techs: why does it take so long to get our sets up to the operating room (OR)? The demand for faster turn-around of surgical instruments is constantly hampered by a number of time-related challenges. In addition, when processes are fragmented and the ...

The Complex and Indispensable Requirements for Instrument ...

4 . In an ambulatory surgery facility, the setup is usually similar to, but smaller than, a hospital setting. The decontamination area is separate from the preparation and packaging area.

This two-year study compared the status of targeted nutrients in selected fresh and frozen fruits and vegetables. In addition, a novel third category was examined—a “fresh-stored” categorization intended to mimic typical consumer storage patterns of produce following purchase (five days of refrigeration).

Selected nutrient analyses of fresh, fresh-stored, and ...
