On my solenoid, both small wires come from the western harness. One is power from the controller, and the other has to be ground. Try a small ground lead from that post to the bat, or a metal surface, and see if it then works.

Plow wiring problem ? | LawnSite

This Switched Circuit Adapter Wiring Harness is designed for use on 1994 and later FLTR, FLT, FLHT and FLHR models. The adapter allows 12 vdc and a ground connection to be supplied to two accessories.

Wiring Diagram - Circuit Wiring Diagrams

The winch works sometimes, but other times it doesn't. If the winch works fine sometimes, but other times it just makes a clicking sound, the cause of the issue will likely be the same as when you always get clicking and the winch never works.

ATV Winch Won't Work - The Ultimate Troubleshooting Guide

ATV Parts, Accessories & Gear Go anywhere. Do everything. That is the appeal and driving force behind ATV's. The ability to use the same machine for both work and play and in all terrains can't be beat.
