CUSTOM & ENGINE SWAP PARTS - DrATV

What is a CDI System? A Capacitor Discharge Ignition is an electronic ignition device that stores an electrical charge and then discharges it through an ignition coil in order to produce a powerful spark from the spark plugs in a petrol engine. Here the ignition is provided by the capacitor charge. The capacitor simply charges and discharges within a fraction of time making it possible to ...

How Capacitor Discharge Ignition (CDI) system Works and ...

This is a list of internal combustion engines models manufactured by the Honda Motor Company

List of Honda engines - Wikipedia

DC powered (by battery or wall adapter) high voltage module is capable of charging capacitors and other field worthy applications. Can operate from a 9-14VDC battery pack or wall adapter (not included) and can fit into a small plastic tube of approximately 1.5" ID.

Power Supplies - High Voltage DC - Information Unlimited

We have Vintage and modern Sport-bike Motorcycle Wiring Harness electrical Connectors, These connectors are purchase directly from the manufacturer, And in many cases the OEM Supplier, The terminals and connectors are superior quality. Most are Manufactured in the, Japan, USA or Europe. Bullet Connectors, Yazaki, Sumitomo, Hitachi, 6.3mm - .250, 2.8mm - .110, 2.3mm - .090, Connector Sets with ...

Prove all things; hold fast that which is good. 1 Thessalonians 5:21 ¶ Electrical problems can pop up at any time and can seem hard to fix but they really aren't. Most of the time, anyway. Most everything can be "Proved" (tested) with an Ohmmeter and some things can be proved with a simple Circuit Tester.. You can get a good cheap ohmmeter, sometimes called a multimeter, from a hardware store ...

I bought myself a set of "D.C." coils from a 2004 Yamaha R1. DC is what Yamaha calls the COP (DC = direct coil). From what I can figure out, they are NOT CD coils, and in their original application on the bike, were fired by what Yamaha calls a TCI system (hmmm, I wonder... could that be Transistor Controlled Ignition?).
