Excavators (hydraulic) are heavy construction equipment consisting of a boom, dipper (or stick), bucket and cab on a rotating platform known as the "house". The house sits atop an undercarriage with tracks or wheels.They are a natural progression from the steam shovels and often mistakenly called power shovels.All movement and functions of a hydraulic excavator are accomplished through the use ...

Antique Allis Chalmers Tractor - AC G - TractorShed.com

What does it take to convert my overgrown lot to a hayfield? Hard work and patience. You can use aggressive or passive techniques for land-clearing. Once the field is clear of stones and stumps — which may require a bulldozer with a grubber blade or a backhoe, and hours of stone-picking — do a soil test and add lime as needed to bring the pH up to whatever your planned hay crop requires.

Haying FAQ - Sheeps Creek

The following list of contracts is being made available to help ensure that the public has access to government information and policymaking information. The list includes available goods and services contracts entered into by the City valued at more than \$25,000 for the fiscal year 2018. Information on this list will be updated on an ongoing basis and made available on the city website.
