Manual Calculation Excel Shortcut

When working on large spreadsheets in Excel 2013, particularly on a slow computer, the calculation process can take a long time to complete. An easy way to "cut the wait time" is to change the calculation mode in Excel.

How to Switch to Manual Calculation in Excel | Techwalla.com

You're probably aware that Excel has two main calculation modes: automatic and manual. Automatic calculation will re-calculate the workbook when a value changes or based on specific actions (inserting, deleting, hiding rows/columns, or renaming a worksheet).

Why does Excel's calculation mode keep changing? - Excel off the grid

The usual answer to this question is to turn formulas to automatic. This, in my case, is not working. The second usual answer is that there is some macro that is affecting the Excel settings. T...
