Wiring always frustrated me, even the simplest layout can be confusing. The easiest one I've found to be useful is in Mike Bishop's book How To Build A Traditional Ford Hot Rod, page 121. The diagram included everything I needed when I built my first roadster, with exception of an ammeter (amp meter).

In classical architecture, a colonnade is a long sequence of columns joined by their entablature, often free-standing, or part of a building. Paired or multiple pairs of columns are normally employed in a colonnade which can be straight or curved. The space enclosed may be covered or open.

### **Colonnade - Wikipedia**

Japanese maple (*Acer palmatum*) is beloved not only for its shape (which ranges from umbrella to spreading, depending on cultivar) but also for its palm-shaped leaves. They're green or burgundy, full or deeply cut and always colorful in autumn. The green-leaved Japanese maples have the best fall foliage color, as you can see in the photo, but the burgundy varieties aren't too shabby, taking ...
