An Open Country. Mongolia existed in a Soviet bubble for most of the 20th century. Now a generation beyond the fall of communism, Mongolia has emerged as a young democracy with a promising economy based on mining, agriculture and tourism.

Mongolia travel - Lonely Planet

Contains the electronic versions of 80 books previously published in hard copy as part of the Country Studies Series by the Federal Research Division. Intended for a general audience, books in the series present a description and analysis of the historical setting and the social, economic, political, and national security systems and institutions of select countries throughout the world.

The incident reports that I mentioned as an element in the focus on safety, also included information of the cost incurred by incidents or malfunctions.. This is where the tracking of equipment goes beyond attention to safety and appears to allow operators to also manage efficiency. In the case of the giant trucks, the weight of their load is not only shown on a large display on the side of ...
