SUB ZERO MODEL 650 AND 550 ICE MAKER CARE PART 2

I have a Sub Zero Model 550 and the ice maker quite working, i.e. it would not start making ice after we had been gone for 5 months. I bought and replaced the ice maker module, but it still just sits there. I pulled the water solenoid valve, applied power and it opened allowing air to be blown through and then immediately shut when power removed, so it appears to be OK.

I have a Sub Zero Model 550 and the ice maker quit working ...

I am trying to get my Sub Zero 550 Icemaker system working. I received the unit with a non-functioning icemaker system. Originally I had followed some steps and jumpered some holes. In doing so the unit cycled (the motor turned) and I also was able to cycle the water valve and determine water was flowing. However the system did not produce ice into the bin and I never

heard it cycle automatically.
